STATE ENGINEER

62627-T

15. Remarks: Water will be pumped from the new well into the existing injection sytem for the Oxbow Power Geothermal Power Plant. The purpose of this application is to replace the water lost through evaporation in the cooling tower. This temporary application is made to allow pumping of the well and use of the water until Application 62569 is acted upon. Supporting map filed under Application 62569.
